

Saurabh Tiwari

Senior DevOps Engineer

Bengaluru, India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior DevOps Engineer with 8+ years of experience in cloud infrastructure, platform reliability, CI/CD automation, observability, and production incident response. Experienced with AWS, Kubernetes, Docker, Terraform, Jenkins, and monitoring platforms across multi-region environments.

TECHNICAL SKILLS

Cloud and Infrastructure: AWS, Amazon EKS, Kubernetes, Docker, Helm, Terraform

Automation and Delivery: Jenkins, CI/CD, Python, Bash, Shell, Go, Linux, Unix

Observability and Operations: Datadog, Grafana, Prometheus, Splunk, CloudWatch, PagerDuty

Engineering: DevSecOps, incident response, root-cause analysis, SLOs, Agile

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer 3 | Cisco | Nov 2024 - Present

Bengaluru, India | DevOps Engineer 2: Apr 2022 - Oct 2024

- Built Docker images and Kubernetes delivery workflows for multi-region services, including FedRAMP and China environments.
- Created reusable Terraform modules for AWS infrastructure, reducing reported provisioning time by 70%.
- Developed Jenkins pipelines and infrastructure automation for repeatable multi-environment deployments.
- Created Python and Bash automation for application build, deployment, and testing workflows, and coordinated production releases across platform teams.
- Helped migrate monitoring from Datadog to Splunk, with reported savings of approximately \$1,000 per month.
- Integrated PagerDuty with Grafana, built SLO dashboards, configured Datadog logging for EKS, and performed production root-cause analysis.

System Engineer / Site Reliability Engineer | Tata Consultancy Services | Jul 2021 - Mar 2022

Mumbai, India

- Managed AWS infrastructure and application deployments using Terraform.
- Built CI/CD automation and supported automated testing, unit testing, and code coverage practices.
- Configured Splunk and AppDynamics alerts, investigated server overloads, and resolved or escalated incidents within SLA.
- Administered Jenkins dashboards for multiple teams, performed upgrades, and supported Linux and certificate maintenance.

Assistant System Engineer | Tata Consultancy Services | Jan 2019 - Jul 2021

Mumbai, India

- Worked with cross-functional teams to design cloud-native enterprise architectures aligned with technical and business requirements.
- Led bare-metal server provisioning and supported systems operations, incident handling, and service reliability improvements.

EDUCATION

Master of Computer Applications | Sastra Deemed University | 2018 - 2022 | 7 CGPA

Bachelor of Computer Applications | BBD University | 2015 - 2018 | 8 CGPA

CREDENTIALS AND ADDITIONAL INFORMATION

Credential: Cisco AI Technical Practitioner | **Languages:** English, Hindi | **Community:** CSR Volunteer at Cisco
